

ENTERPRISE ENGINEERING SERVICES

EES Corporate Overview

Founded in 2006, EES is a Service-Disabled Veteran-Owned Small Business (SDVOSB) and certified 8(a) minority-owned Small Disadvantaged Business (SDB). EES' Project Management Office (PMO) and Technical Management Office (TMO) Directors have more than 30 years experience in the continuous evolution of the National Airspace System (NAS).

EES maintains a cooperative working environment and a thorough understanding of Federal Aviation Administration (FAA) processes, which makes us an essential part of our customer's successful effort to achieve iCMM and ISO 9000 compliance. Although the FAA is our primary customer, we also have past and current experience supporting AMTRAK, U.S. Census Bureau, and U.S. Drug Enforcement Administration.

EES is an advancing leader in the delivery of innovative and transformational Information Technology (IT) and strategic business solutions. EES supports some of the Federal government's most demanding technical customers in meeting their "cradle-to-grave" acquisition lifecycle efforts to establish and implement many highly complex, mission-critical applications, including the critical infrastructure within the NAS.

EES invests in national and international modernization efforts to transform and secure IT operations between trusted partners. EES collaborates with government, industry, and academic partners through the Transglobal Secure Collaboration Program (TSCP) and NextGen Aviation Research and Technology Park (NGARTP) to address and resolve secure information sharing initiatives.

EES Core Competencies

- ▶ Systems Engineering
- ▶ Software Engineering
- ▶ Program Management
- ▶ Enterprise Architecture
- ▶ Information Systems Security
- ▶ Desktop Operations and Support
- ▶ Second-Level Engineering Support
- ▶ Systems and Network Administration
- ▶ Information Technology (IT) and Management
- ▶ Operations Analysis and Maintenance Support

EES Performance Summary

U.S. Census Bureau

- ▶ **Technology Management Office (TMO)**
 - ◆ Software Upgrade Support
 - ◆ Migration Plan Development
 - ◆ CM Tool Administration and Support
 - ◆ TMO New Tools Training and Support
 - ◆ CM Process Improvement Development
 - ◆ CM Process Automation Scripting Support
 - ◆ Documentation Release Process Automation

AMTRAK

- ▶ **Technology Operations Enterprise Support**
 - ◆ Network Management Support
 - ◆ Operations and Maintenance Support
 - ◆ Program/Project Management Support
 - ◆ Systems Engineering & Administration Support
 - ◆ Amtrak Corporate Operations Systems Monitoring

Federal Aviation Administration

- ▶ **Service Operations Support (SOS-5)**
 - ◆ IT/Help Desk Support
 - ◆ Strategic Planning Support
 - ◆ Program/Project Management Support
 - ◆ Second-Level Engineering Support for the NAS
- ▶ **Logical Access and Authorization Control Service Support (LAACS)**
 - ◆ Strategic Planning Support
 - ◆ Requirements Definition Support
 - ◆ Integration and Deployment Support
 - ◆ Operations and Maintenance Support
 - ◆ Enterprise Architecture and Development Support

U.S. Drug Enforcement Administration

- ▶ **Unified Oracle Application Operations & Maintenance and Enhancement Support (UOA)**
 - ◆ Technical Staffing Support
 - ◆ Desktop Operations and Support
 - ◆ Technical Documentation Support
 - ◆ Operations and Maintenance Support
- ▶ **Enhanced Non-Drug Evidence Database Systems (ENEDS)**
 - ◆ Software Engineering
 - ◆ Desktop Operations and Support
 - ◆ Technical Documentation Support

Contact EES

To learn more about how EES can assist you in achieving your mission critical goals, please contact John Daniels, Vice President of Federal Programs at (609) 965-0900 or john.daniels@ees-net.com.

FOCUS ON THE FUTURE

CONTRACT NUMBER: DTFWA10A-00120

Electronic FAA Accelerated and Simplified Tasks (eFAST) Master Ordering Agreement (MOA)

The eFAST MOA is available for use by the FAA and potentially all federal government agencies. The MOA functions as a Blanket Purchase Agreement (BPA) providing a broad range of comprehensive professional and support services including Technical, Engineering, and Scientific Services; Professional, Management, and Administrative Services; Advisory and Assistance Services; and Major Systems Support Services.

The eFAST MOA is the FAA's preferred Small Business contracting vehicle for issuing contracts to any of the pre-approved, highly-skilled, and experienced contractors selected for their ability to meet the requirements of the FAA and support its operations today and into the future.

eFAST Benefits

- ▶ Geographic Coverage Including All 50 States, the District of Columbia, and All U.S. Territories
- ▶ Multiple Contract Types with Performance-based Solutions Available
- ▶ Full-service Procurement Services, Streamlined Procurement Lead Times, One-stop Shopping
- ▶ Providing Access to Trusted and Reliable Small Business Industry Partners
- ▶ Allows for 5-year Base Period Plus Two Option Years
- ▶ Direct Awards to 8(a) Companies Up to \$4 M
- ▶ Low 1% Access Fee

Current Task Orders

EES provides services in the following Functional Support Areas:

- ▶ Business Administration Management (BAM)
- ▶ Computer Systems Development (CSD)
- ▶ Research and Development (R&D)
- ▶ Documentation and Training (D&T)
- ▶ Computer Systems Support (CSS)
- ▶ Maintenance and Repair (M&R)
- ▶ Engineering Services (ES)

Remote Monitoring System Engineering Team Support

EES provides network architecture, security, and maintenance support related to large-scale re-hosting effort for the Remote Maintenance Monitoring System (RMMS) to facilitate national Oracle DB management of all Monitoring and Maintenance operations of NAS systems and facilities.

NAS Information Systems Security Engineering (NISSE) Support

EES provides specialized security expertise and services to NAS system owners for the tactical implementation of Air Traffic Operations (ATO) strategic Information System Security (ISS) vision, plans, and policies to ensure the cyber security of NAS and NAS mission support systems and their data without jeopardizing the integrity of NAS.

Configuration Management Process Support

EES provides Quality Assurance, Process Definition/Improvement, Configuration Management, Customer Service, Metrics, and Program/Project Management support to the Communications, Flight Service and Weather Engineering Group (CFWG) to assist in achieving executive/agency level initiatives and policies.

Data Analysis and Management Support

EES provides data analysis and management support for Strategic Sourcing for the Acquisition of Various Equipment and Supplies (SAVES), IT Asset Management (ITAM), and Electronic "Green IT" initiatives in order to assist the IT Infrastructure Division (AOT-100) in meeting FAA Flight Plan objectives related to controlling costs and improving the agency's capabilities to make data-driven decisions related to IT.
